

LOMANDRA LONGIFOLIA

A relative of the unique and unusual grass trees of Australia, Breeze is a compact, fine-leaf selection of mat rush displaying tussocks of shiny, dark green foliage with cream to yellow flower heads in the spring. PP15,420

Contrast the drought-tolerant Breeze (on right) to the non-drought tolerant Miscanthus (on left).

- Extremely drought tolerant once established
- Tolerates heavy frost and hot, dry conditions
- Evergreen in normal winters to 20° F. Zones 8–11
Cold hardy to Zone 7
- Medium growth rate. 2–3' high and 2' wide. Space 2–3' for optimum growth
