

Foremost® Orchids

# EPIDENDRUM SP 'Joseph Lii'

- Epidendrum 'Joseph Lii' is a robust orchid often referred to as a "reed-stem" Epidendrum.
- 'Joseph Lii' will flower on multiple upright shoots with clusters of bright fuschia colored flowers.
- Plants flower as new shoots mature, often several times a year.
- Suited for partially shaded landscapes in warm climates as well as indoor pot plants or summer patio plants in cooler areas.

### **Starter Material Offered**

- 2.5" pots, 4-5" tall, rooted in coco-fiber.
- Packed 80 per box.

### **Pot Sizes and Crop Times**

- Best suited for 6-8" pot size.
- Finishes in 6-12 months.
