

EPIDENDRUM 'YELLOW' (CLUMPS)

2 PPP CLUMP FROM 3" TO 6"
EXPORTED IN SOFT POTS

About this Orchid:

Common name: Reedstemmed Orchid

- They like fairly low light; 2,500 – 3,500 foot candles or 60-70% shade
- They like to be kept moist during their growing period (warm) and kept drier during their slower growing time (cool)
- As with water, keep well fed during their growing period and back off the fertilizer during the cooler months
- Use a very well drained media, as with all ground orchids
- Best temperature range is 50°F-80°F, but they can tolerate as low as 40°F and as high as upper 90°F's
- Epidendrums will give almost continuous blooms from February-October if kept in warm conditions
