

Looking for a high value flowering pot plant? High market appeal? Good per-square-foot earnings?

**Foremost Orchids™ introduces pre-finished Dendrobiums for the regional pot plant grower.
Quantities limited. Plants purchased now will flower Spring 2009. Call us!**

Dendrobiums for your 3 or 4 inch flowering pot line: We've invested the time and now it is time for you to reap the benefit. These are grown in Costa Rica at our farm Ornamentals Sapo Verde and shipped through Miami arriving fresh at your door. These robust clones selected for Pot Plant production are 70 weeks old and will flower on their next growth. Well rooted in a 2.5 inch pot in Coco-fiber they arrive with a minimum of 3 growths and react quickly to being bumped up, flowering within 16-20 weeks after arrival. Simply wrap the existing root-ball in Sphagnum moss or pot them up into an orchid bark mix and watch them grow.

Select your greenhouse with a 60-85F temperature range and provide them with 2500 fc of light and they will be flowering before you know it. **We offer two distinct lines:**

Standard Clones: for 4 inch pot production flowering with an overall finished height of 24-30 inches tall. Packed 60 per box. Shipped as 2.5 inch pots 18-20 cm tall.

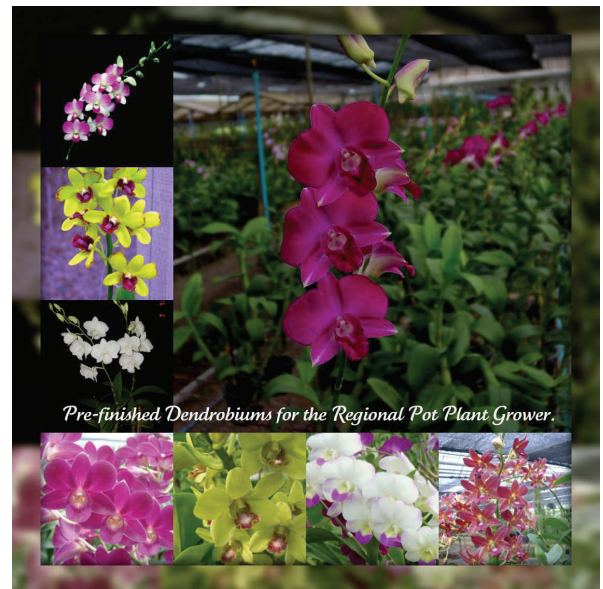

Miniature Clones: for 3 inch pots flowering with an overall finished height of 12-18 inches tall. Packed 80 per box. Shipped as 2.5 inch pots 12 -15cm tall.

Minimum order:	300 plants	\$2.00 (list price)
Price each	1200 or more plants:	\$1.80
	3600 or more plants:	\$1.60

MISS THIS and MISS OUT!!
