

Dianella tasmanica White Variegated

Dianella tasmanica White variegated can be used as indoor foliage everywhere and make a striking patio pot or “thriller” in combination planters.

Varieties can be used as a landscape plant, sun or shade, throughout Florida. They thrive in coastal plantings from California through Washington and Virginia, around through the Gulf Coast.

- Salt tolerant
- Heat and humidity tolerant
- Zones 8-10 hardy
- Adaptable to lower light situations

Young plant divisions and plugs are available from ForemostCo®.
